AMENDMENT

Technology Center 2600

Dear Sir:

In response to the Office Action dated December 4, 2001, please amend this application as follows.

IN THE TITLE

Please amend the title to read as follows.

--FIRST-SURFACE OPTICAL DATA STORAGE DISK
CONTAINING PHASE-CHANGE RECORDING LAYER
AND HOUSED IN CARTRIDGE--

IN THE SPECIFICATION

The paragraph beginning at page 8, line 13, is rewritten to read as follows:

Because the transparent layer 718 is typically formed from a non-conductive material, there is a significant risk that rotation or similar movement of the medium will create sufficient static electrical charge that dust particles or other debris may be attracted to (and/or become difficult to remove from) the operational surface of the medium.

The paragraph beginning at page 10, line 25, is rewritten to read as follows:
